

Information on medical fee for uninsured foreign visitors

Our medical fee for non-Japanese patients who are not enrolled in Japan's social insurance program has changed since April 1, 2021, to ¥30 per medical remuneration point.

Chiba University Hospital's medical resources are funded by insurance premiums and taxes paid by residents of Japan. Accordingly, to ensure fairness, we have revised medical expenses incurred by foreign visitors so they pay an amount equivalent to that shouldered by Japanese nationals.

Our hospital staff will continue providing safe, high-quality medical care to all patients. We thank you for your understanding and cooperation regarding the fee structure.
